EFFORT TO OUST **NELSON IGNORED** BY C. F. L. BOARD

There was a clash yesterday at a Chicago Federation of Labor conference over a resolution to remove Ald. Oscar G. Nelson from the vice presidency of the organization. A delegate from the painters' union, Local No. 273, offered the resolution, which the executive board of the federation re-fused to consider.

The resolution accused Ald. Nelson of acting against the interests of organized labor in prosecuting members of the Chicago Cloak 'Makers' union charged with intimidating members of the ladies' garment workers' union.

CHALLENGES FISH TO PROVE 'FIXING'

Demands Retraction of

[Chiese Tribuse Free Service.]

Washington, D. C., Nov. 30.—[Special.]—Frank J. Hogan, counsel for Edward L. Doheny, multi-millionaire oil operator, has challenged Representative Hamilton Fish [Rep., N. Y.] to prove or publicly retract a statement in which the congressman charged that Doheny "tried to tamper with the jury" which acquitted him and Albert B. Fall, former secretary of the interior, in the Fall-Doheny conspiracy trial but winter.

In a speech before the Port James.

Folitically this is commidered as evidence that the state organization forces are becoming convinced that Gov. Len Small will not accede to Mayor Thompson's demands that For Lundin and his close associates be cast into the outer darkness, or in other words, that there is to be no Small-Thompson's demands that there is to be no Small-Thompson alliance.

Former Congressman Lundin is to be present, and although he is not on the program, there are rumors that enthusiasts will demand that, he speak. But there is a rule against," politics "at the dinner.

In a speech before the Port James.

There is no warrant for any man ding such a statement at any time any place regarding Mr. Doheny." Cites Roberts' Denial.

The letter cites the denial of Owen.
J. Roberts, chief of special government counsel in the Doheny trial, as well as the Sinclair trial, that there was "any information of any kind whatever indicating, or tending to indicate, that Mr. Edward L. Deheny tried to tamper with the jury."

Mr. Hogan referred to the opinion of the United States Supreme court in the civil phase of the Doheny litigation. Doheny's lease on the Elk Hills naval oil reserve in California was invalidated on the ground that it was "shot through with fraud and corruption."

"We accepted, as we necessarily had to accept, that decision," declared the letter to Mr. Fish, "and the rec-ords of the United States court at Los Angeles . . . show that my clients have fully compiled with every re-quirement of the court's orders in the

THE OBLIGATIONS OF LAND GRANT COLLEGES.

The land was given under the Morrill act, which became law in President Lincoln's first term. The grant was accepted by Wisconsin, and for decades the requirement that the students be given military training was faithfully observed. That requirement was not accidentally included in the contract between the federal government and the states. The Mexican war had disclosed a shortage of attempted, among other matters, to prevent another such shortage. It is precisely for that reason

responsibility for the recent change in policy at Madison upon the legislature rather than the university administration, for it was the legislature and not the university administration which relaxed the requirement of compulsory military training at the university. At the same time,

We find ourselves in agreement on these points with the judge. Further, we are inclined, from what evidence we have been able to obtain, to accept his opinion that one obstacle to successful military training in the colleges has been the quality of the teaching of military science at many of them. Here, as Judge Bruce intimates, the war department is itself to blame. Military science can be made to appeal to a greater number of students than almost any other subject taught in the colleges, provided it is taught skillfully and adapted to the tastes and interests of college men.

The Mexican war had disclosed a shortage of trained officers in our army, and the Morrill act attempted, among other matters, to prevent an other such shortage. It is precisely for that reason that the student regiments are maintained today in the land grant colleges.

Judge Bruce was correct in placing the primary responsibility for the recent change in policy at Madison upon the legislature rather than the university administration, for it was the legislature and not the university seministration which relaxed the requirement of compulsory military training at the university. At the same time, Judge Bruce did not fall to remind the university authorities that they still owed a duty to the nation to maintain a strong military department and encourage students to undergo training, or, as he phrased it, "to look on military training as a basic study."

HUNT SLAYER'S FINGERPRINTS IN WOMAN'S DEATH

Relatives Deny Suicide of Artist Found in Auto.

A fingerprint expert was consulted

A fingerprint expert was consulted last night by the police in their effort to determine whether Miss Rens Kellner, 30 years old, 7224 Coles avenue, died by her own hand or whether the was slain.

The body of Miss Kellner, a commercial artist, was found late Saturday night slumped over the wheel of her automobile in front of the home of Edward G. McDougall, 6727 Euclid avenue, president of Libby, McNeill & Libby, packers. She had been shot twice near the heart and a small automatic pistol lay nearby. The expert will hunt for fingerprints on the gun.

Dr. Joseph W. Springer, coroner's physician, was convinced that the girl killed herself, and police of Woodlawn district agreed with this theory.

Relatives Doubt Suicide.

But the girl's mother and her sister, Miss Tobine Kellher, said they could not bring themselves to accept a theory of suicide and demanded that a thorough police inquiry be made.

"Rena never owned a pistol in her life," declared the sister. "She had no reason whatever to kill herself.

"Why should she have driven the car up over 'he curb? Why was her purse open? Why should she spread the robe over the radiator of the car?"

Miss Kellner had left her home at 8 p. m. to fill a dinner engagement at the home of a friend, Miss Louraine Aber, 4016 Lake Park avenue. That was the last trace of her until her was the last trace of her until her body was found by Mr. McDougall upon the return of his family from a

Dr. Springer called attention to powder burns upon the girl's clothing and upon her left giove to support a suicide theory. He said the second shot might be explained by the sudden recoil of the gun.

Miss Kellner's father, Simon Kellner, insurance broker, was said to be near death from a heart attack. He was not told of the tragedy. An inquest will be held today.

Insanity Decreases, State Alienist Tells Moderns

A decrease in cases of insanity re-ported in Illinois was revealed yester-day by Dr. Alex S. Hershfield, state alienist. In 1926, he said, there were 21 774 terms perfect against 21 742 in alienist. In 1926, he said, there were 21,774 insane patients against 21,743 in 1927. During the same period the state's population increased 118,436. "This is gratifying," Dr. Hershfield declared, "snd is a strong argument against the calamity howlers who believe the life of this generation is so gay and nerve racking as to increase mental disease."

Fred Harvey meal service on the Santa Re is a distinctive feature of a distinctive railway-unequalled in American railroading. It has an international reputation.

Experienced travelers know this is true. Ask any of these veterans of the steel high-way and their answer is apt to be-best in the world.

This really remarkable service was con-ceived with high ideals. What is the most that can be given the patron for his dollar, always has been and still is the hig idea and hig idea. I. Only the best is good enough for the Santa Fe and Fred Harvey.

In unique dining stations, 125 miles or so apart, Santa Fe-Fred Harvey have endeavored to capture the charm of southwest history and romance. Yet these dining stations are but a moment's walk from Santa Fe rails.

On the Santa Fe you do not eat in an esting house; you dine at a dining station. There is a difference-the Fred Harvey "difference."

Also perfect Fred Harvey dining car service on certain trains.

Five Santa Fe trains leave Chicago and Kansas City every day for California. "Santa Fe all the way." Besides The Chief there are The California Limited, The Navajo, The Scout and The Missionary-all offering

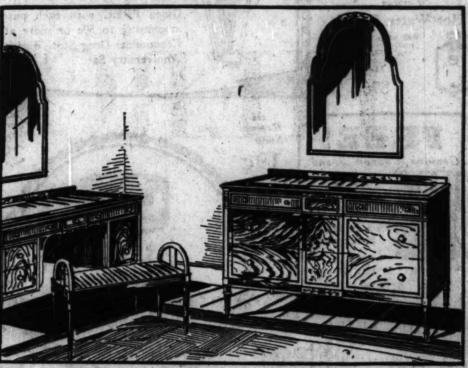

famous Fred Harvey meal service.

PLAN DRIVE TO SLAUGHTER WILD DONKEYS IN UTAH

Salt Lake City, Utah, Nov. 30.—(P)

Hundreds of wild deakeys roving
about the vicinity of Price, Utah, are
presenting a bothersome problem to
that community, says a dispatch to the
Salt Lake Tribune.

The diminutive beasts, originally imported for mining prospectors, are estigall the grass and in dry years deput the bark of the big trees. Smaller cristics of trees, and shrube they dereat.

They have multiplied rapidly sine the first few were brought into the region in 1905. Ranchers can correspond to the wild horses, which are numerous in the country around Price, but the donkeys are to nimble footed. A move to slaughter them in the country delay.

Another great day in PIERCE-ARROW history

Even to those already accustomed to Pierce-Arrow standards the new 81—exhibited for the first time last week—was a real sensation. It was the embodiment of a new spirit in fine motor car building.

With its European interpretation of Pierce-Arrow ideals, its marked air of exclusiveness and refinement, we believe no other new motor car model ever warmed its way into the hearts of its beholders more quickly or more completely than did this one. Not even a Pierce-Arrow!

Here is a car whose every promise to a waiting public is more than fulfilled. A car, roomy and luxurious; whose transcendent beauty of

lines eclipses even its predecessors; whose colorful finishes sound a new note in harmony, dignity and variety; whose richness of interior appeals to the ultra-discriminating; whose comfort is supreme—true to every Pierce-Arrow tradition.

Here is a car with a power plant proved in demonstration to exceed expectancy in even a Pierce-Arrow; a power plant with almost immeasurable possibilities in speed, in stamina, in responsiveness—a stellar achievement of twenty-six years of engineering effort.

Here is a car more than ever emphasizing the recognized value of the Pierce-Arrow as a business and social asset.

INVADE LONDON

'Coxey Army' Asks Head of Premier Baldwin.

BY JOHN STEELE.

Ghisage Tribuse Press Service.]

[Convright: 1927: By The Chicage Tribuse.]

LONDON, Nov. 20.—Undaunted by the dreary November drizzle, thousands gathered in Trafalgar square this afternoon for a gigantic unemployment protest rally. They gathered to welcome Britain's "Coxey army"—250 Weish miners who had marched 200 miles to London to bare their grievances.

Although the speeches were curtailed due to the weather, red banners and labor placards were much in evidence, and violent denunciations of the Baldwin government were greeted with cheers. There was a large money collection taken.

Insiste Baldwin Must Go.

Insisis Baldwin Must Ge.

"We have come to London in order to give Prime Minister Baldwin notice to quit," declared A. J. Cook, secretary of the Miners' federation, as he waved a miner's lamp. "We claim the right to live and Baldwin must go."

The speaker said the object of the march on London was to reveal the misery of the miners and their families. He declared that in 1914 they had marched to France for their employers, while in 1927 they marched to London for the workers. "The march is being echoed not only in Wales but in Durham, London, New York, Berlin and Russia," he added.

"A Battle for Bread."

"We wish to bring before the people

"We wish to bring before the people the tragedy of unemployment and poverty of the miners and the callousness of Prime Minister Baldwin," continued Mr. Cook. "The battle of Trafaigar is of the past. In the present and the future it is a battle for bread."

The speaker said that Mr. Baldwin sat with his feet on the table while poverty stalked through the land. He then led the audience in a chant, yelling, "Baldwin must go!" and winding up with a declaration of class war.

BOY SULTAN, BY PHONE, FIRES FATHER'S FRIEND

RABAT, Morocco, Nov. 20.—(P)—Seventeen year old Mohammed Ben Mulai Yussef, the new sultan of Morocco, gave a display of sultaness authority today by dismissing Sidi Ben Habedou, master of the sultan's palace at Rabat, by a telephone message from

Sidi Ben Habedou, a lifelong friend of the late Sultan Mulail Yussef, is understood to have wielded a baneful influence over the sultan and it was considered expedient that he retire. Habedou demanded that he be permitted to proceed to Fes, so he might speak with the boy sultan. This was refused, but the master of the balace seried the telephone and enumerated the reasons why he should remain at his post.

Today's Fact on SINUS TROUBLE

No. 1.—What are the Sinuses?

PEOPLE talk of sims trouble in nowadays, as something new. The fact is, sinus trouble is probably among the oldest of human ills. But medical science has only recently identified it along with infected tonsils, adenoids and discased teeth as a source of "focal" infection—which, in plain words means the seat of inflammation where germs lodge, and send out into the blood-stream a by-product very poisonous, and known to medical men as "toxins."

These germs often pack up their families and embark on a cruise of the blood-stream, damaging other organs of the body. A careful physical examination by your doctor will disclose the areas of focal infection in the sinuses are cavities in Sinus Trouble" in every package.

Sinuseptic washes away the drainage from sinuses and rids the masal cavity of toxic secretions. Reduces congestion and inflammation Quick relief for head colds and catarrh! Highly recommended by thousands of users everywhere. Comprehensive booklet, "What Is Sinus Trouble" in every package.

Use only true complexion soap -in this way

THE secret of a good complexion rests largely on two factors: Keeping the skin clean, the pores open and using ONLY a true com-plexion soap ever on the face.

A soap may be excellent for a thousand purposes, yet be too harsh for the skin. Good complexions are often thus imperiled.

Hence, largely on expert advice, thousands use Palmolive Soap. A soap made solely for ONE purpose—to safeguard good complexions. A beauty soap you know is safe to use. soap made solely for ONE purpose

Velvet Is Pleated For a New Frock

Most firmly established of the winter fashions, the widely popular vogue of velvet becomes more charming with each new interpretation of it which appears. Transparent velvet is used for an unusually smart frock which is sketched directly above. The two-tiered skirt is finely pleated and a very chic bowknot pin of brilliants ornaments the shoulder. The frock may be had in soft shades of blue, green, brown or in black and is priced \$110. Women's Costumes, Sixth Floor, South, Wabash

With the busy winter season on its brilliant way and every moment valuable, the convenience of shoppings here cannot be overestimated. Here every important detail of the costume may be selected at one time, and the perfect whole achieved with inestimable saving of time and energy. Our winter collections are complete; chic, elegance, beauty characterize gowns, wraps, hats, shoes, and every accessory. The woman who chooses her wardrobe in advance turns to us when unexpected demands are made on it as much as does the woman who makes her purchases for each special occasion as it arises. Each knows that here she will find the unusually attractive, authoritative expressions of the new modes — the really smart apparel which she demands.

Gift Umbrellas From Abroad

If you were to attempt to find Umbrellas as lovely and as original as these you would have to visit Vienna, Paris, Berlin and London—and even then you would have to sift the markets for anything so lovely as these we have just imported. ORGANIZE LEAGUE

Clinic to Help Victims o Intolerance.

The Radio League of Reconciliation innounced its organization yesterday ith a summons to "men and women good will everywhere who desire the imination of dogmatism in American e," to join the movement.

The league's program for promoting tolerance, to be conducted largely through the medium of the radio, was presented by the Rev. C. Copeland Smith in front of the microphone at his pulpit in the Grace Methodist church, and was broadcast by station WCFL at the Municipal pier. The Reconcillation league is to be incorporated this week with nine directors. rated this week with nine director. Smith acting as president.

rated this week with nine directors. Dr. Smith acting as president.

Four Purposes of League.

As outlined by Dr. Smith, the league is to operate in four directions. First, it will attempt to reconcile to the satisfaction and understanding of all races and creeds the essential relationships between God and man, race and race, capital and labor, male and female, churcin and ehurch.

Second, it is designed to discover the good in every movement and expose it at the expense of evil; to discover the beautiful in everything at the expense of the ugly; to find points of contact instead of points of difference; to attack only intolerance and bigotry.

The third aim, as expressed by Dr. Smith, is "to preach the essential religion that underlies all true creeds "—that religion being to "love the Lord thy God with all thy heart and with all thy mind and with all thy soul and with all thy strength—and thy neighbor as thyself."

But the league is not only intended, Dr. Smith explained, to settle underlying differences of creed in the light of the essential unity of mankind. Its fourth purpose is the creation of a clinic, supported by funds to be supplied by members, to help solve individual cases of distress growing out of the spirit of intolerance.

It is proposed to have at hand a corps of men and women experts trained in dealing with "disturbed minds" to help reconcile men and women "troubled with burdened hearts and anxious spirita."

THESE three new alarm clocks and the new I model Westclox watch are distinguished for unusual beauty of design. That's why they have become so popular.

You can rely on Big Ben De Luxe, Baby Ben De Luxe and Ben Hur to wake you without fail. Their dials are easy to read, their keys easy to wind and you can't beat them for good time-keeping. These clocks stand firm and solid, hard to tip over-and that adds to their long life.

The new model Pocket Ben watch is sturdily built and, like all other Westclox, is thoroughly trustworthy.

You'll find Westclox wherever they sell reliable time-pieces. Some have plain dials, others luminous night-and-day dials. Prices \$1.50 to \$5.00.

mesota in action and it is unfortunate the two elevens cannot meet. It would be a great game, because neither eleven depends on any one player for the desired result.

Coaches Zuppke of Illinois and Spears of Minnesota are deserving of credit for molding two such splendid elevens. The general team play of both elevens hardly could have been improved. The execution of the complicated formations, combined with the coördination between line and back field were the results of conscientious coaching. These plays were well planned by the coaches, who took into consideration that only superb blocking would make them successful.

Gophers Have Sustained Attack.

Gophers Have Sustained Attack.

Minnesota's victory over Michigan, the first since 1919, was clean cut and decisive. The Wolverines put up an uphill battle, but as the game progressed it was apparent that Minnesota was the better eleven. The Gophers were hitting just as hard at the finish as at the start of the struggle. There was power in every play and the linemen gave the backs protection which enabled them to carry the ball deep into Michigan territory on several occasions.

Convincing victories of Illinois and Minnesota over Ohio State and Michigan performed splendidly despite the fact can the unexpectively, and the unexpect ed defeat of Missouri by Kansas featured Satur-desired Sat

But the Illini appears to have accause they won all their conference games, while Minnesota it must be said that Coach Spears tried to schedule more conference games last December but was unable to do so. It is not the fault of the Gopher coach that Minnesota met only four Big Ten opponents. Minnesota met and defeated Wisconsin, lowa and Michigan. Its tie game with Indiana is the only blot on its record.

Illini Have Clean Slate.

Illinois won from Northwestern, Michigan, lowa, Chicago and Ohio State early in the season. Injuries, however, hampered Coach Hanley in later games, some of which might have been won if the team had been sent on the field intact. Purdue won over Indiana, 21 to 6, in a game of importance in the Hooster that. The Rolleymakers came of the proposents of the surface of the counted as minnesota, the Orange and Blue is the surface of the counted as many conference games, while Minnesota they won all their conference games, with Madison on the short end of a 12 to 0 score. It was a well earned victory for Coach Stagg and his players who have enjoyed a fairly successful season. Wisconsin, on the other hand, had a disappointing year. The Badgeer lost to Minnesota the unit of the Gopher coach that Minnesota met and defeated Wisconsin, lowa and Michigan. Northwestern closed an eventful season by

California at Soldiers' field on Saturday.

In the Missouri Valley conference the defeat of Missouri, which has held the title for two years and was leading the race for the honors this season, by Kansas, 14 to 7, was about the biggest surprise of the day. The Jayhawkers had been kicked around quite a bit by other teams in the valley association and Missouri was picked to win by a comfortable margin. Undisturbed by this break, the Pr

ers kept up their defensive game, but the Bears drove on relentiessly and before the half ended carried the ball within one yard of another score, only to fail when Joe Sternaman fumbled and recovered on the Packer 16 yard line. Paddy's second drop kick effort, this time from the 23 yard line, also failed.

Green Bay set off the fireworks in the third quarter. Dunn, all-American quarter back from Marquette, replaced Purdy, and Enright was sent in for Kotal. With Lewellen and Lambeau, the other backs, and O'Donnell and Dilweg at ends, they passed and ran the Bears in the greatest offensive exhibition at Wrighter field this very

Aviator doesn't look the part of a mustang—in fact, he so closely resembles his thoroughbred rivals along some lines that many believe he at least has some of the blue blood of horsedom coursing through his veins. His 600 mile flivver trip from Nebraska apparently was just a small event in his life, for he looked like a well conditioned horse in his long drill yesterday.

Paul Berienbach, former holder of the 175 pound championship who meets the middleweight champion in the windup of the boxing show at the Collseum Friday night feels that way. He said so yesterday.

"If it took a dozen of Mickey's left and right hooks to knock out McTigue, it will take three dozen to stop me."

Paul said yesterday after his work-out. "And while Walker is trying to hit me I'll be doing a little pitching myself. All I want is a few socks at his body and he will not think of reaching me elther with a left hook or right cross."

Goes Across The Continent To

SAN FRANCISCO TODAY

THE world's largest distributor of Financial News has established a direct wire between New York and San Francisco to serve Pacific Coast brokerage, banking and business offices, supplementing its present facilities in fifteen cities, including:

> **NEW YORK** BALTIMORE WASHINGTON

CHICAGO DETROIT CLEVELAND

BOSTON CINCINNATI NEWARK

PHILADELPHIA PITTSBURGH JERSEY CITY

While the Far Western Branch will specialize in Pacific Coast financial, industrial, railroad and commercial news, it will also deliver in entirety the news printed on the tickers in New York. "Flashes" of important news will appear on the San Francisco tickers practically simultaneously with the other fifteen cities.

The importance of this service to Chicago houses with branches or correspondents on the West Coast needs no emphasis. It means that vital events affecting finance and industry will be announced on both edges of the Continent-and in great cities between-at the same time.

Foreign news will be supplied, as at present, by CENTRAL NEWS, LTD, of London, an affiliated company, one of the largest European press associations,

Detailed information about the new service will be supplied, on request, to Mid-Western brokerage firms, banks and business houses with connections in San Francisco. Telephone: Wabash 5222.

BOND DEPARTMENT

Occupies New Quarters

ODAY the Bond Department is installed in its enlarged and permanent offices at the Dearborn and Monroe Street comer of the First National Bank Building. This marks the completion of another unit in the comprehensive building program of our Banks.

Since 1863, when the First National Bank of Chicago was organized, the bank has been continuously an investor in bonds. When the First Trust and Savings Bank was founded, in 1903, the investment activities of both banks were concentrated in the Bond Department, which specializes in the underwriting and distribution of high grade securities.

Bonds from a broadly diversified list, which have been purchased for the bank's own account, after thorough investigation, are offered to investors. Inquiries are invited in person or by mail from those considering investment in conservative securities. Courteous and confidential service is assured.

The New York Cimes.

New York, Nov. 20 .- [Special.]-Neither in the financial markets nor in the field of industry did anything me into view last week such as would alter, for better or worse, preconceived views of the general outlook.

If Wall street had been doubtful of the treasury's plan to return the " Sec ond Liberties," of which three billions were outstanding only eight months ago, the results would have brought new reassurance. Tuesday's easy completion of the undertaking, without a ripple in the money market, however, was pre-cisely what every one had looked for. In regard to the actual news of trade de velopments the situation ended the week with little change.

It was clearly too early to expect any striking consequences from the steady-ing of steel market prices and the moderate increase of railway orders, or, in-deed, to reach positive conclusions as to the position actually created by them. Railway traffic did not inc

Whether because of this lack of anything to foreshadow immediate change in the trade position or because of the violent reaction in the market, last week's became wholly confused and indecisive. Begin 1928 Soothsaying.

This seeming suspense of judgment is not unusual for the season. In the last or seven months of a calendar year Wall street always is more apt to disc what will happen in the new year than in what remains of the old one, and it knows that it will get a full supply of expert prophecies before the end of De-

They have begun already; last week re had Secretary Mellon's remark that temporarily weak spots in trade are counterbalanced by highly satisfactory ac-tivities elsewhere and the public state-ment by the chairman of the General Motors company's finance committee that the greatest prosperity which our country has ever enjoyed is indicated for 1928. But the influence of these predictions on financial sentiment has ordinarily been cumulative, and perhaps the markets are waiting to see if there any contrary judgment.

This blend from the old South is now fresh-roasted for the people of Chicago.

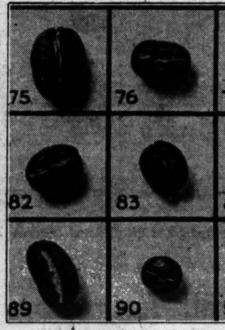

MR. EDWARD J. KELLY, Chairman of the South Park Commission, and Mr. H. E. Poronto, trustee of the Central Manufacturing District, start the first delivery of Maxwell House Coffee from the new Chicago plant, where this old southern blend is now freshly prepared. From left to right, Mr. Kelly, Mr. Newman, Mr. Poronto, and Mr. Riggan.

MR. CHARLES DICKINSON, oldest living fiver and prominent figure in American aviation, examines a coffee map of the world on a recent visit to the new Maxwell House Coffee plant in the Central Manufacturing District of Chicago. Mr. Riggan, plant manager, is pointing out the forty tropical countries from which hundreds of kinds and grades of coffee are sent to the United States, and explaining the great achievement of Joel Cheek in creating the special richness in the Maxwell House blend. Today Joel Cheek's work stands as one of the world's truly great achievements in the art of blending flavors. His blend is pleasing more people than any other coffee.

THE MAN WHO CREATED THIS FAMOUS BLEND—Joel Cheek. Years ago down in Nashville, Tennessee, he perfected a shade of difference in coffee flavor—a blended richness. Today this blend—Maxwell House—is the most popular coffee in the United States.

HUNDREDS OF KINDS and grades of coffee that taste as different as they look. A few of them are here shown enlarged. From these countless natural flavors a few were chosen and combined years ago by Joel Cheek—Maxwell House Coffee.

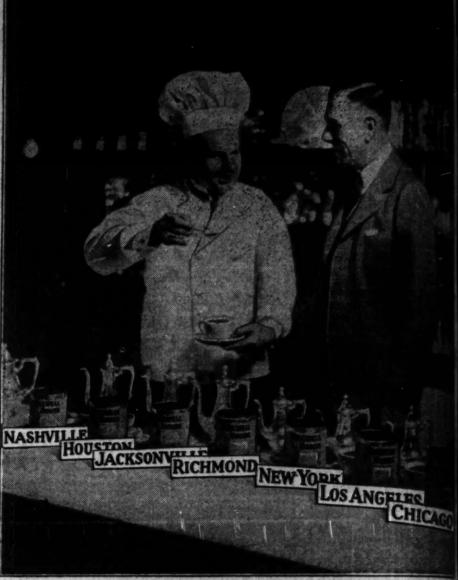

MASTER BLENDER AND ROASTER. Wade C. Owen (left), one of America's leading authorities on coffee, makes an official test of the various coffees used in the Maxwell House blend, at the opening of the new Chicago plant, while Mr. Riggan, manager, and Mr. L. A. Bleich, superintendent of roasting, look on. An associate of Joel Cheek from years ago, and now the master roaster of the company, Mr. Owen has played an important part in helping to maintain that rich, mellow goodness in Maxwell House Coffee that has brought it such fame.

sophie Brasia, contratto of Metropolitan Operatame, who will be the guest soloist during Maxwell House Coffee hour from KYW and 25 other stations Thursday, December 8, from 8 to 9 P. M. Maxwell House radio programs featuring noted singers and instrumentalists are broadcast every Thursday

MEMBERS OF THE JUNIOR LEAGUE at the Harris Theatre find a new pleasure in the blended richness of the first day's roast of Maxwell House Coffee from the new Chicago plant. They are serving Joel Cheek's famous blend just after rehearsals for their first play of the winter, "The Rose and the Ring," which will be given at the Harris Theatre Saturday morning, November 26. Long ago Maxwell House Coffee won unanimous approval among the great families of old Dixie. For years it has been the largest selling coffee in New York, and a long list of other great cities. The blended richness of Maxwell House Coffee, fresh-roasted in the new plant on Pershing Road, brings a new luxury to Chicago.

AT THE LAKE SHORE DRIVE HOTEL, popular gathering place of critical Chicagoans, F. W. Scheibe, Chef-Steward, conducts a unique test on coffee from the first day's roast at the new Maxwell House plant on Pershing Road. He has just compared the taste of the Chicago roast with coffee prepared at each of the six other Maxwell House plants, and is congratulating Mr. James E. Riggan local manager, on the uniform quality and flavor that has made this old southern blend the favorite coffee of the country.

FRANK F. WINANS (left), vice president of the Chicago Association of Commerce greets Robert S. Cheek, vice president and general manager of the world's greates high grade coffee business, upon the latter's arrival from Nashville, Tennesse, to attend the opening of the new Maxwell House Coffee plant on Pershing Road. Maxwell House Coffee is now freshly prepared in seven great roasting plants in New York, Los Angeles, Nashville, Houston, Jacksonville, Richmond, and Chicago.

AT THE CHICAGO YACHT CLUB members of the younger set enjoy part of the first day's roast of Maxwell House Coffee from the new plant on Pershin Road, between rehearsals for "Capstan Chanteys," the musical play to be given by the club early in December. In the special richness of Joel Cheek's blend fresh-roasted, they find the mellow smoothness which has made Maxwell House Coffee the first choice of the entire nation—"Good to the last drop."

Somthing; incoherent, of course, but sometimes its failure.

Or was it only fancy on her part, she asked herself, the effort of her mind to read some meaning into what was perhaps nothing but the vagaries of some madman unknown to her?

For some moments more Helen Deering pondered over the queer huddle of objects. Then as one who has had living immediate realities that leave no time for mood or funtasies, she shrugged her shoulders, shut and locked the frawer and put it out of her mind.

Mrs. Edith B. Warner, 5906 South Green street, widow—I wouldn't say they are as low as the beasts of the field, but for me a prize fight is not a pleasant thing to see. I had a ringside seat at a prize fight once. It went along fairly well for, a while, but it was not all right when they began showing signs of their bruises.

Carl Tosch, 629 West North avenue, chauffeur—I believe in prize fights and I don't think they make beasts of us. I can't call them beasts that ge there to see a fight, either. Some of the best people, both men and women, in the world so the sould seem to be essentially a miniaturist of the keyboard, lacking only in the final smash of technic to put the greater things across. One feels that the ideal program for her would be one-half of Chopin masurkas and one-half of let us say, Debussy. Such a performance requires a highly specialized equipment, and from what was heard of her performance it would seem to be the equipment that she has.

John Ranksi, baritone, and Arthur C. Becker, organist and accompanist, combined forces in a joint recital at Kimball hall, the first event in point of time of the afternoon. Mr. Rankel was heard in a group of old Italian works where he displayed a good start, though not yet a complete realization of the singer's art. Mr. Becker then played Franck's "Piece Herolque," not one of the greatest works of this composer, but played well.

At the same hour La Chorale Fran-caise gave a program of French and American part songs under the direc-tion of Charles Lagourgue at the Good-man. They were assisted by Fernand and Jacqueline Francell, father and daughter of Paris, who are singing-actors. Appearing first in solos and duets, they ended with a one act op-eretta of the eighteenth century, which included several pleasant songs of that period.

Vera Mirova Wins Thanks and Plaudits for Dance Recital BY HAZEL MOORE.

Vera Mirova gave a dance recital yesterday afternoon at the Playhouse, and earned thereby the thanks and en-thusiastic acclaim of as many as the theater could hold, and the disappointment of a hundred or so not fortunate enough to gain admittance. She deserves, too, the thanks of all lovers of the dance for reclaiming this beautiful experience. tiful art form as a recital medium. She accomplished, for the solo dancer, what the allied arts has accomplished in a larger form for the ballet. That there is a public demand is certain and Miss Mirova proved that she is just the person to fill that demand.

Since her appearance two seasons ago with the Allied Arts, we have

ago with the Allied Arts, we have known that we had in Mirova an ori-ental dancer who had penetrated the surface of the intricate rhythmic and muscular control necessary to the in-volved motions peculiar to the orient. We knew that she had spent years of study on the native heath of the de-lightful Javanese, Hindu, and Burmese dances.

But what was a surprise was the occidental section, where Mirova showed herself a completely versatile artist of the dance. Her dancing of a saraband to the Rameau-Godowsky music begged for its revival, while the Brahms "Lulla-Mrs. Albert Blake Dick of disclosed a beautiful plasticity and admirable expression. Prokofieff's music inspired in the "Machine Age" a geometric curiosity that fitted both the mood of the music and that of the audience.

Critical Mother Makes It Hard for Married Daughter BY DORIS BLAKE.

"I am married, 24, and have two lit-tle children. My husband is the same age. He is working in vaudeville and traveling, so that necessitated my go-ing home to my mother's for the win-

but just because she doesn't like my husband she keeps on knocking him

"I love him better than any one, and next come my babies, and it hurts when she is nagging about him at every opportunity. I haven't money enough to get out and get a flat, so it is driving me crazy. Should I listen to my mother or just take everything and stick to my husband?—A Discour-

Stick to the husband, by all means.
If there is no immediate hope of escape from the constant criticism you will simply have to train your ears to close tightly when the subject veers in his direction. One can do this, you know. You can let a person nag her head off and not hear a single word of it. It requires concentration, but it can be accomplished.

Tour mother probably feels she has a side to be heard, too. After rearing a side to be heard, too. After rearing a girl to the marriage age, it is a bit of a disappointment to find, instead of release from money obligations, that she has to provide for the girl and her children. If she could afford it, there probably would be no question about money, although it does not follow always that a mother can look tolerantly on a son-in-law who is pet quite able to support his wife and family, even though she have sufficient means to provide the deficit.

It is a curious quirk in the mind of

But they ought to be happy or if not happy, contented in school espe-cially when you consider how many hours of their young lives are spent there. The cream of every childho day is given to school, and for that reason if for no other we want to make each day something to antici-pate, not dread.

One of the most usual reasons why en develop a distaste for school is a physical one. If they're not well, ol involves an exertion for them that they are not quite up to. A thorough examination by the doctor get at the root of the whole difity. Anemia, tonsils, eyes—any one of a number of things may be

Another very frequent reason for ob-ections to school is to be found in the children's lessons. Their arithmetic may be going badly and they are utterly discouraged. The writing of a story may be a bugbear to them and they may have to write one every day. Reading aloud may simply overwhelm them because of a combination of shyness and inability to master the subject. Find this out if you can and then help them every day, besides asking their teacher's cooperation. The on the trouble will more than

Occasionally it happens that a child is so mischievous that he or she is al-ways in trouble in school, and yet doesn't like it in spite of the fact that it's his own fault. Also, sometimes a te his own fault. Also, sometimes a leacher, will not understand a child and the two do not get along. Both of hese difficulties make a child dislike school and both of them can be eradicated by firm handling at home and a friendly tactful talk with the teacher.

When so little flour is used as is required in the following recipe, one has to have good cooking sense to manipulate it correctly. It must be correctly measured, and the butter and sugar must not be cooked to a syrup stage. With the chicken fat then, our nut stick recipe may read: One-fourth cup of chicken fat, one cup of brown sugar, one egg, che-fourth cup of walnut and pecan meats cut in pieces, one cup sifted flour—this means sifted before measured, dipped into a cup with a tablespoon, not shaken or disturbed and the top stricken off with a knife, giving "stricken measure"—one-fourth teaspoon of salt, one teaspoon of baking powder, one HIGHEST CASH FINE

> AAA SALESMEN.

Think of the lowered sales resist ance you will meet in representing 1. One of the oldest real estate de-velopment trusts in America; 40 years of successful development without one failure.

2. The originators of the now widely copied methods of seiling real estate on easy payments.

3. The Trust that has sold over \$200,000,000 worth of property in 26 cities of the U. S. now worth very close to a billion dollar.

A. The Trust that renders real service, sells its properties as cheaply as it can afford to sell them rather than for the maximum that, it can get for them; that maintains a parkillae appearance of its properties for years; that assists in the building of homes; that stands by its customers in time of financial distress; that last year actually resold for the accounts of its customers over \$3,000,000 worth of property in each case at more than cost.

Our record in Chicago is unequaled and milions of dollars have been tade by satisfied customers. We want clean cut, hard hitting men who can talk intelligently and tell the truth. Beal estate experience desirable but unnecessary. We will train you cur way and furnish you with dreck inculries from our ADVER-TISING CAMPAIGN now running. During the past 30 days we have paid out in commissions to 20 men over \$14,000.

We are offering a lifetime oppor-tunity to make a permanent connec-tion and real money, but you've got to work our way, which for 40 years in 26 American cities has proved the right way, and you've got to be pre-pared to do a real day's work. If you are accustomed to loafing, liv-ing on a small advance or small sal-ary, we do not want you. If you are a real worker, call any day this week after 10 a. m. and we will tell you the rest of our story.

DOLLARS \$5\$ You know ps, and you know our work. The Harmon organization has developed 12 of the most beautiful home sections in Chicaco-Chatham Fields, Engleneld, Ravenswood Manor, Beverly Hills, and others equally successful. It has made profits of over \$30,000,000 for investors in its Chicaco properties alone. Our assistants in this work have earned many hundreds of thousands.

Now we want to know YOU—for we have a unique proposition to make to a few clever people who want to turn their spare time into dollars.

WANTED-MALE HELP.

MEN. Do You Fit This Picture?

In May of this year Elbert Elp was a solicitor for the X Railroad, setting a modest salary, but had ambition for better things and the courage of his convictions. He came to our omee, took our training course and went to work as a salesman. His earning since starting employment have been over \$20,000—at the rate of \$3,000 a month. He is still producing requarry every day. Such facts as these, which are picked is random from our records should be a ruidepost to the greatest opportu-sity over offered to a thinking man.

WANTED-MALE HELP.

A POSITION OR A JOB; WHICH? In fairness to yourself and those de-pendent on you, how can you be sal-isfied to putter along on a salaried job merely for the shaky security of having \$25 to \$50 per week assured, when the same hard work required to earn that salary, if expended here, will open wide

THE DOOR TO SUCCESS. Why wish for things the other fellow has? Why try to keep up with the Joneses and just shead of the sheriff when all you need is faith in yourself and the courage to make the move? Follow out our instructions and make use of the co-operation of-fered and if it is in you we will bring it out.

WE HELP YOU to the extent of virtually forcing you to carn big commissions. A Sales Manager works with you on your prospects and both the Sales Manager and the Sales Director close your deals for you. Such co-operation produces results.

OUR REAL ESTATE SALES SCHOOL. This is the original, the most thorough Real Estate Sales School ever opened to the public. Many of the men who have received our train-ing are now among our most success-ful salesmen.

THE HARMON ORGANIZATION

is in a self-created class in reputation, resources and record. HARMON on real estate is synonymous with STERLING on silver-the mark of assurance and quality. Our organization sold the first lot ever sold in America on installments in Cincinnati in 1887. We have sold over two hundred million dollars' worth of property in 20 different cities of this country. Our Chicago record of 12 developments of the type of Chainim Fields. Ravenswood Gardens, Ravenswood Manor, Southfield, and others is 100% record of success. All who bought from us have made money. Our properties today are ALL monuments to the type of work we do. This opens prospect's doors and gains attention for our salesmen.
